Pirates of the Caribbean

One of the most famous and modern film about pirates is the series of *Pirates of the Caribbean*. People know them because of the fascinating actor Johnny Depp who plays the role of the main pirate, Captain Jack Sparrow. This Walt Disney production has been so successful with the first chapter *The Curse of the Black Pearl* that the director decided to shoot other four movies to complete the series. A Mixture of irony and love, these films represent funnily what means to be a pirate and the risks they can face.
